- Oliceridine
- Oxycodone
- Tramadol

Pain and Antidepressants

- Amitriptyline
- Desipramine
- Nortriptyline
- Venlafaxine

Autoimmune

Immunosuppressants

- Azathioprine
- Cyclosporine
- Mercaptopurine
- Siponimod
- Tacrolimus
- Thioguanine

Cancer

Anti-Estrogens

- Tamoxifen

Antimetabolites

- Capecitabine
- Fluorouracil

Protein Kinase Inhibitors

- Erdafitinib
- Gefitinib

Topoisomerase 1 Inhibitors

- Irinotecan

Tyrosine Kinase Inhibitors

- Pazopanib

Cardiovascular

Antiarrhythmics

- Flecainide
- Propafenone

Anticoagulants

- Warfarin

Antiplatelets

- Clopidogrel

Beta Blockers

- Carvedilol
- Metoprolol
- Nebivolol
- Propranolol

Cardiomyopathy

- Mavacamten

Statins

- Atorvastatin
- Fluvastatin
- Lovastatin
- Pitavastatin
- Pravastatin
- Rosuvastatin
- Simvastatin

Endocrinology

Meglitinides

- Nateglinide

Gastroenterology

Antiemetics

- Dronabinol
- Metoclopramide
- Ondansetron

Antihistamine

- Meclizine

Proton Pump Inhibitors

- Dexlansoprazole
- Esomeprazole
- Lansoprazole
- Omeprazole
- Pantoprazole
- Rabeprazole

Infection

Antifungals

- Voriconazole

Anti-HIV Agents

- Abacavir
- Atazanavir
- Efavirenz
- Nevirapine

Mental Health

Antiaddictives

- Lofexidine

Anti-ADHD Agents

- Amphetamine
- Atomoxetine
- Viloxazine

Antidepressants

- Amoxapine
- Bupropion
- Citalopram
- Clomipramine
- Doxepin
- Escitalopram
- Fluoxetine
- Fluvoxamine
- Imipramine
- Mirtazapine
- Paroxetine
- Protriptyline
- Sertraline
- Trimipramine
- Vortioxetine

Antipsychotics

- Aripiprazole
- Aripiprazole lauroxil
- Brexipiprazole
- Clozapine
- Haloperidol
- Iloperidone
- Perphenazine
- Pimozide
- Quetiapine
- Risperidone
- Thioridazine
- Zuclopenthixol

Benzodiazepines

- Diazepam

Continued overleaf

Medications covered in Medcheck cont.

Neurology

Anticonvulsants

- Brivaracetam
- Fosphenytoin
- Phenytoin

Antidementia Agents

- Donepezil
- Galantamine

Benzodiazepines

- Clobazam

Other Neurological Agents

- Deutetrabenazine
- Pitolisant
- Tetrabenazine
- Valbenazine

Rheumatology

- Antigout agent
- Allopurinol

Urology

Alpha-Blockers

- Tamsulosin

Antispasmodics

- Darifenacin
- Fesoterodine
- Mirabegron
- Tolterodine

Other

Gaucher Disease

- Eliglustat

Dermatology

- Abrocitinib

Gynaecology

- Elagolix
- Flibanserin

Haematology

- Avatrombopag

Sjogren's Syndrome

- Cevimeline

Drug Gene Interaction updates reflect the most current evidence on specific drug-gene interactions, ensuring that our reports continue to meet the highest scientific and clinical standards. To achieve this, the GenXys report is frequently updated based on standardised databases and the latest available evidence
